

# TAKE CREATIVE CONTROL OF YOUR CAMERA

## PHOTOGRAPHY OF MUSICIANS & PERFORMERS

### REALISE YOUR CREATIVE PHOTOGRAPHIC VISION!

Graduate beyond point-and-shoot photography and put an end to the frustration of wondering why things work sometimes and why sometimes they don't. **Show your digital camera you are the boss!**

This **PHOTOGRAPHY OF MUSICIANS & PERFORMERS** course puts you on the road to becoming a proficient digital camera user who is able to see and confidently capture photographs of performing artists.

**The course begins** with learning to take full manual control of your camera\* to get the results YOU want! This is simpler than you might think as there are only three things to control. Later you will use automated exposure modes and switch to manual control when it's needed to get the results you want.

### Points the course will cover

- manual control of your camera - the 3 ways to control exposure
- review of manual, programmed and auto-exposure modes
- photographic vs human vision & white balance
- composition and communicating with photographs
- effects with lenses and shutter speeds, especially in available light stage and venue conditions
- photographic accessories
- basic image editing techniques
- practice your photography on a band brought to the Roxbury by Mike Cook of Redeeming Features Entertainment!

EXPERIENCE THE JOY OF HAVING THE CAMERA OBEY YOUR EYE!
